## **ENTRÉE GOLD FILES PRELIMINARY PROSPECTUS SUPPLEMENT**

**Vancouver, B.C., November 4, 2011** – Entrée Gold Inc. (TSX:ETG; NYSE AMEX:EGI; Frankfurt:EKA - "Entrée" or the "Company") has filed a preliminary prospectus supplement dated November 4, 2011 (the "Supplement") to its short form base shelf prospectus dated November 19, 2010, in connection with a marketed offering of its common shares (the "Offering").

The Offering will be conducted through a syndicate of underwriters led by Desjardins Securities Inc., and is expected to raise gross proceeds of up to C\$12.5 million. The Company will also grant the underwriters an over-allotment option to purchase up to that number of additional common shares equal to 15% of the common shares sold pursuant to the Offering (not including any shares issued to Rio Tinto pursuant to their pre-emptive rights described below). The option will be exercisable for a period of 30 days following closing. The number of shares sold may also be increased to the extent that Rio Tinto Exploration Canada Inc. ("Rio Tinto") exercises its pre-emptive rights to maintain its current percentage ownership in the Company.

The net proceeds of the Offering are expected to be used to fund ongoing exploration on the Company's Ann Mason project in Nevada and Shivee West project in Mongolia, and for general corporate purposes.

The Offering will be priced in the context of the market with the final terms of the Offering to be determined at the time of pricing. The common shares will be offered in all provinces of Canada (except Quebec).

Closing of the Offering will be subject to a number of conditions, including Toronto Stock Exchange and NYSE-Amex approval.

The common shares have not been and will not be registered under the United States Securities Act of 1933, as amended, or any state securities laws, and may not be offered or sold in the United States or to, or for the benefit or account of any U.S. person, unless exemptions from such registration requirements are available. This news release shall not constitute an offer to sell or the solicitation of an offer to buy these securities. There shall be no offer or sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification of such securities under the laws of any such jurisdiction.

### **ABOUT ENTRÉE GOLD INC.**

Entrée Gold Inc. is a Canadian mineral exploration company focused on the worldwide exploration and development of copper and gold prospects. The Company's flagship Lookout Hill property in Mongolia completely surrounds the Oyu Tolgoi project of Oyu Tolgoi LLC, a subsidiary of Ivanhoe Mines and the Government of Mongolia. A portion of the Lookout Hill property is subject to a joint venture with Oyu Tolgoi LLC. The joint venture property hosts the Hugo North Extension copper-gold deposit and the

Heruga copper-gold-molybdenum deposit. Excellent exploration potential remains on the joint venture property for the discovery of additional mineralized zones.

In North America, the Company is exploring for porphyry-related copper systems in Nevada and New Mexico. The primary asset is the Ann Mason property near Yerington, Nevada, which hosts an inferred mineral resource estimate of 810 million tonnes grading 0.40% copper using a 0.30% copper cut-off, containing approximately 7.1 billion pounds of copper. The property has considerable potential, both to increase the size of the Ann Mason deposit and to discover additional targets.

In addition to being a politically stable jurisdiction, the Yerington copper camp has seen significant historic copper production along with a resurgence of exploration activity and now hosts over 20 billion pounds of copper in several deposits owned by a diverse group of companies.

The Company is also seeking additional opportunities to utilize its expertise in exploring for deep and/or concealed ore deposits. Rio Tinto and Ivanhoe Mines are major shareholders of Entrée, holding approximately 13% and 12% of issued and outstanding shares, respectively.

#### **QUALIFIED PERSON**

Robert Cann, P.Geo., Entrée's Vice-President, Exploration, and a Qualified Person as defined by National Instrument 43-101, has reviewed the technical information contained in this release.

*This News Release contains forward-looking statements and forward-looking information (together, "forward-looking statements") within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, with respect to the extent and timing of the Company's proposed offering and the use of proceeds therefrom. These forward-looking statements are made as of the date of this news release. Users of forward-looking statements are cautioned that actual results may vary from the forward-looking statements contained herein. While the Company has based these forward-looking statements on its expectations about future events as at the date that such statements were prepared, the statements are not a guarantee of the Company's future performance and are subject to risks, uncertainties, assumptions and other factors which could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. Such factors and assumptions include, among others, the effects of general economic conditions, risks related to unsatisfactory results of due diligence, the ability to satisfy the conditions of closing of Offering, the prices of gold, copper and molybdenum, changing foreign exchange rates and actions by government authorities, uncertainties associated with legal proceedings and negotiations and misjudgements in the course of preparing forward-looking statements. In addition, there are known and unknown risk factors which could cause the Company's actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Known risk factors are described in the Company's Annual Information Form for the financial year ended December 31, 2010, dated March 25, 2011 and its Short Form Base Shelf Prospectus dated November 19, 2010, both filed with the Canadian Securities Administrators and available at [www.sedar.com](http://www.sedar.com). Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly,*

*readers should not place undue reliance on forward-looking statements. The Company is under no obligation to update or alter any forward-looking statements except as required under applicable securities laws.*
